Musical Light Show

Learn about lighting and music options

Plug in your Orchestra of Lights™ products and wait for them to automatically sync with the Hub. This could take a few minutes. Lights will flash white and begin the Christmas Light Show when successfully connected to the Hub.

Now for the fun part! Orchestra of Lights™ offers multiple themes, colors, effects and preprogrammed light shows. Browse through your options then apply selections to each product to create your ultimate holiday light show. Additionally, with the Light Show Box with Speaker, you can incorporate your existing lights and decor to coordinate with the Light Show.

To enjoy music and beat detection with Orchestra of Lights™, you must have at least one item with speaker capability:
